Serial No. 70

From the President, City Municipal Council, Bangalore, No. 186 of 26.12.18
Submits a statement showing the extra-ordinary expenditure incurred and liabilities incurred out of the advance of Rs 10,000/- drawn from the Treasury, for the Bangalore Influenza Hospital

71

From the Sanitary Commissioner, No. C.Dis 350 of 27.12.18
Submits a report received from the President City Municipal Council, Bangalore, regarding the work of the Influenza Hospital. 2. From the statement of expenditure received it is submitted that a supplementary amount, viz Rs 6100-5-0, has been spent for furniture & fittings for the Hospital. The details for the above items as also for the establishment charges have not been given. The Municipal Council have entertained the liability to meet any portion of the expenditure connected with the Hospital.

Submitted for orders

9.1.19

Are they not in the file?
I know as I was there

2. The reports are incomplete & deal with three separate matters viz:-

NOTE—Contn. sheet.

General and Revenue Secretariat. | File No. 56 of 191 9-49

Serial No.

(1) Question of payment of an allowance of Rs 150 p.m. to Drs. Puttanna
(2) Question as to whether the municipality shd be made to pay 1/3 the cost of the Hospital seeing that the Govt have made a gift of Rs 5000 for the same.
(3) ~~Question whether the~~ Adjustment of accounts.

248 It is seen from the correspondence that an allowance of Rs 150 p.m is suggested for Dr. Miss Ayyachammal & the same is included in the accounts. There is however no claim to made by her in this respect. So the Govt have to consider whether Drs Puttanna & Miss Ayyachammal have to be given the allowance.

25 The municipal Council say that they are too poor to pay their contribution

NOTE—Contn. sheet.

Extract from the Proceedings of the 503th *Meeting of the Council of His Highness the Maharaja, held at Bangalore on the* 23rd October 1919.

14. Subject. - Clause xii of the schedule

(a) Adjustment of the expenditure incurred and disposal of the furniture etc. purchased for the temporary Influenza Hospitals in Bangalore and Mysore.

Opinion of the Council.

(b) One third of the net cost of the Influenza operations in the Bangalore and Mysore Cities may be asked to be borne by the Municipalities.

(c) In regard to the disposal of furniture etc., the departments taking over such furniture - such as the Epidemic Diseases Hospital - should pay for the same, the charge being borne by Government and the Municipality in the same manner as the expenditure of the hospital is usually divided.

(d) An allowance of Rs.150 per mensem for the Medical Officer and the Lady Medical Officer may be granted for the period the special hospital was maintained.

(Signed) M. Kantaraj Urs,

Dewan of Mysore.

Note—Contn. sheet.

Final Note by the Second Member of Council.

90

Subject:- Adjustment of the expenditure incurred in Mysore and Bangalore Cities on Influenza relief and the disposal of furniture etc., purchased for the temporary Influenza Hospital in Bangalore and Mysore.

During the outbreak of the pandemic of Influenza in Bangalore in October and November last, a hospital under canvas was opened in the Municipal Gardens and kept working between the 30th October to 30th November 1918.

2. A sum of Rs.10,000/- was sanctioned for the hospital in two Government Orders and in the second order dated 5th November 1918 it was stated that a portion not less than a third of the expenditure should be borne by the Municipality.

3. From the report on the working of the Influenza hospital, it was ascertained that the sum spent on the hospital was Rs.9,805-1-0 of which Rs.6006-10-0 was for the purchase of furniture and other fittings. It was also reported that a sum of Rs.9562-10-3 had been spent out of Municipal funds and had subsequently been recouped by the Comptroller. Thus the total expenditure out of the State Funds on Influenza relief at Bangalore was Rs.19,367-11-3.

4. The President, City Municipal Council Bangalore, states that the Municipal Council is not in a position to bear any part of the expenditure, and forwards the resolution of the Municipal Council that Government be requested to waive the contribution of 1/3 of the expenditure.

5. The President also recommends the grant of an allowance of Rs.150/- each to Assistant Surgeon Mr.D.S.Puttanna and the late Miss Ayachammal for having been in charge of the hospital.

6. Similarly a sum of Rs.9,368-13-8 was spent in Mysore City on Influenza relief. The question of the adjustment of the expenditure on this head in the two cities was considered together. When the file came before me on 29th March 1919 I recorded the following minute:-

Page 14 of Office Notes

"Practically the Municipalities of Mysore and Bangalore have spent nothing on operations for dealing with the Influenza Epidemic. Under the Municipal Regulation, it is the primary duty of the Municipality to make proper arrangements for prevention and medical relief during the prevalence of Epidemic diseases. It seems to me that the Municipalities in question should contribute a fair share of the cost.

"The Medical Officers who worked in the Hospital ought to get, I think, special allowances. Similar allowances were given to the Medical Officers working in plague hospital when plague first broke out in 1898. The proposal of the President may be approved.

"The articles of furniture may be sold and the proceeds credited to the Government."

7. With regard to the furniture costing about Rs.6000/- it was reported that all the furniture which was paid for with the exception of easy chairs was transferred to the Head Office of the Municipality and the easy chairs together with some glassware, screens and beddings transferred to the Epidemic Diseases Hospital.

Page 27 of Office Notes

8. Thereupon the officiating Dewan (Mr.Banerji) remarked as follows:-

"The transfer of equipment to Epidemic Diseases Hospital was not authorised.

"The Senior Surgeon should pay for the valuation if the present equipment has to be thus used.

" I know there were a lot of things not at all used.

" It is not right that Municipality should pay nothing towards the Influenza expenses.

32

"Please get correct information and put up for Council."

9. The details of articles purchased and those disposed of were accordingly called for and it was ascertained that out of Rs.6006-10-0 worth of furniture, articles worth Rs.836 roughly had been either lost or damaged and that about Rs.5170 worth of furniture was with the Municipality or in the Epidemic Diseases Hospital.

T & U

Σ

10. The question was then discussed in the Council with particular reference to the following points:-

(a) whether the municipality should not be asked to bear a portion of the cost (as per Government Order dated 5th November 1918 referred to above)

(b) whether furniture roughly estimated at Rs.5170/- may not be left with the municipality and if so left, a part or whole of the cost as also that of the broken or lost articles borne by them.

(c) Whether the allowance of Rs.150/- each per mensem may be sanctioned to the Medical officers in charge of the Hospital.

Page 7 of Office Note

11. On a full consideration of these facts the Council passed the following resolutions:-

"One third of the net cost of the Influenza operations in the Bangalore and Mysore cities may be asked to be borne by the Municipalities.

"In regard to the disposal of furniture etc., the departments taking over such furniture - such as the Epidemic Diseases Hospital should pay for the same, the charge being borne by Government and the Municipality in the same manner as the expenditure of the hospital is usually divided.

"An allowance of Rs.150/- per mensem for the Medical Officer and

the Lady Medical Officer may be granted for the period the special hospital was maintained."

Page 38 of Office Notes

12. The Financial Secretary who was consulted has no objection to the proposal.

13. The proposal that the municipal share of the cost of the Influenza operations should be 1/3 of the total, now suggested in respect of the last year's expenditure, is the same as was accepted this year by the Presidents of the City Municipalities before the order re: Influenza prevention issued in August last.

14. The recommendations of the Council may graciously be approved.

MEMBER OF COUNCIL.

19th November 1919.

Submitted to His Highness.

GENERAL AND REVENUE SECRETARIAT.

DEPARTMENT OF EDUCATION,
AGRICULTURE, INDUSTRIES AND COMMERCE.

Bangalore, 25th Oct. 1918.

Dear Sir,

I am directed to state that it is proposed to start immediately a temporary Influenza In-patient Hospital in the Municipal garden Bangalore City and that a large number of tents is required for providing accommodation.

I am to request you to be so good as to spare as many of the old tents with you as possible and to intimate at once how many tents and of what description can be spared. Even old tents if they are serviceable may be spared for the purpose.

The favour of a very early reply is requested.

Yours Sincerely

OFFICE OF THE PRESIDENT,
MUNICIPAL COUNCIL,
BANGALORE CITY, DATED 18th Nov 1918.

FROM

DEWAN BAHADUR RAJA SABHA BHUSHANA
K. P. PUTTANNA CHETTY, ESQ.,
Honorary President, Municipal Council,
Bangalore City.

To

The Chief Secretary to the Government of
His Highness the Maharaja of Mysore,
~~*General and Revenue Departments,*~~
Bangalore.

SIR,

Adverting to your letter No.C.B.247 dated 25th October 1918 sanctioning the payment of Rs.5000/- for starting temporary Influenza In-patient Hospitals, I have the honor to state that the amount has been drawn from the State Huzur Treasury, Bangalore, on the 29th October and spent in constructing and equipping the first Hospital in the Municipal Garden. Several bills have yet to be paid.

I therefore request that a further sum of Rs.5000/- Five thousand may kindly be placed at the disposal of the Chief Officer, who is in direct charge of the arrangements.

I have the honor to be,
Sir,
Your most obedient servant,

K P Puttannachetty

Honorary President.

Re: Influenza

GPB—2,000—20-8-13.

191

From The Honorary President
Municipal Council
Bangalore City

To

The Chief Secretary
to the Government of
Mysore, Bangalore

Dated } 18th November 1918.
Despatched }
Received

General No. 1920
No.

Enclosure No.

Requesting to place at the disposal of the Chief Offr another sum of Rs 5'000-
to meet the cost of Influenza relief works in the City.

I have advised the Chief Offr to furnish his requirements since the R.C. has resolved to defend the suit.

In the meantime he is requested to submit an estimate of the probable cost of the relief works to be undertaken by the Council.

It would have been better if details had been furnished. I am afraid this may lead to some waste & delay in the matter of sanctioning the expenditure. Let detailed estimate be submitted under advice to me for sanction.

ORIGINAL. Office of the City Municipal Council,

No. 128 Bangalore dated the 11th Novr., 1918

From

The Honoraray President,
City Municipal Council, Bangalore.

To

The Chief Secretary
to the Government of H.H. the
Maharaja of Mysore, Bangalore.

Sir,

With reference to Government Order No.C.E.299-302 dated 5-11-1918, sanctioning a further sum of Rs.5000/- for the Influenza Hospital, I have the honor to submit herewith, a statement of estimated expenditure out of the two sanctioned allotments of Rs.5000/- each.

2. As regards the direction that a part of the expenditure not less than ¼ should be borne from the Municipal Funds, I would respecfully beg to state that the Municipality is not in a position to bear any part of the cost on account of the Influenza Hospital. The City Improvement Schemes - viz the construction of the Municipal Offices and Town Hall have been started. Besides, the acquisition of properties for the formation of New extension is being pushed through and large sums of compensation are being paid and this is a concern the cost of which is entirely borne from Municipal Funds. The usual recurring charges during the current year especially of the Conservancy and Sanitation Departments are found to be much in excess of the sanctioned Budget allotments owing to war and the existing state of things. The Municipality should therefore find ways and means to meet these charges by re-appropriation of funds and by applying for additional allotments.

3. Under these circumstances, I beg to submit that the

7 148
11-11-18.

The President,

City Municipal Council,

B A N G A L O R E.

Sir,

In connection with my posting to the Medical charge of the Influenza Hospital at Bangalore, I feel I should place the following facts before you and beg of you to kindly commend the same for the sympathetic consideration of Government

(1) The work of organising and running a Special Hospital of the kind which has devolved on me is admittedly of an arduous nature.

Recd 9-11-18

(2) My transfer from Mysore at very short notice and for a temporary but unknown period has compelled me to maintain two establishments, one at Mysore and another at Bangalore, and it goes without saying what a heavy outlay all this would mean in times such as the present.

Request favourable consideration

12/11/18

(3) Bangalore being a City of distances, I have to provide myself with a suitable conveyance to enable me to attend the Hospital both in the mornings and in the afternoons and carry

4/11/18

on my duties with promptitude.

The above facts make out, I believe, a strong case for the grant of a suitable allowance to me for the period of my special duty at Bangalore. The Medical Officers in charge of the Victoria Hospital at Bangalore and Krishnarajendra Hospital at Mysore are in receipt of a Local Allowance of Rs.200/- per mensem and taking into consideration the facts urged above an allowance of Rs.150/- per mensem could not, I venture to submit, be considered as excessive in my case. I therefore beg that you will be so good as to recommend the grant of this allowance to me for the period of my special duty at Bangalore.

I have the honour to be,

Sir,

Your most obedient servant,

D S Puttanna,

Medical Officer,

in charge of the Influenza Hospital,

Bangalore City.

To

C.S.Balasundarama Iyer, Esqr., B.A.,
Chief Secretary to the Government of His
Highness the Maharaja of Mysore, Bangalore.

Sir,

I have the honor to submit herewith Resolution No.5 (Additional Subjects) at the Municipal Council Meeting, dated the 23rd November 1918, confirming my letter No.128 dated the 15th November 1918, regarding the inability of the Municipality to bear any part of the said expenditure. Considering the very large outlay incurred by Government on the occasion of the first outbreak of Plague wholly from State Funds, the present request seems quite modest in dealing with an epidemic of greater intensity and distructiveness. The Municipality already bears half the charges of Epidemic Disease Hospital

To

Dewan Bahadur Rajasabha Bhushana
K.P.Puttanna Chetty, Esquire, C.I.E.,
Honorary President, Municipal Council,
Bangalore City.

Sir,

With reference to your Office Memo No.1462 dated 30-11 18, regarding the closing of the Temporary Influenza Hospital, Bangalore City, we beg to report as follows:-

The Temporary Influenza Hospital was closed on the 30th November 1918; out of the 5 patients that were remaining in the Hospital at the end of that day 2 were discharged cured, and 3 were dischargedrelieved on the morning of the following day.

The services of the two Nurses and of the rest of the menial staff that were still on duty at the Hospital were at once dispensed with on the 30th November 1918, excepting those of Steward K.S.Subbiah, Dhobi Abdul Wahab and Peon Munivenkatappa which were maintained by special sanction from you till the work of handing over charge of the Hospital fittings etc., was over. All the three subordinate Medical Officers were relieved of their duties on the forenoon of the 1st December 1918 and were directed to report themselves for duty forthwith to the Senior Surgeon. All accounts relating to the Hospital have been closed by the Medical Officer.

The Health Officer took over charge in detail of all furniture and fittings, linen, medicines, and all other equipments from the Medical Officer on the afternoon of the 11th December '18 and the Medical Officer will report himself to the Senior Surgeon for duty tomorrow.

The acquittance roll and other registers etc., as detailed in appendix No.1 are handed over to the Health Officer for being filed in the Health Department.

The furniture borrowed from the Lal-Bagh and the Record Room of the Municipal Office have been returned as per details in

appendix

88

appendix 2, All chairs (except the easy chairs), tables, benches as per details in appendix 3 that have been paid for have been transferred to the Head Office of the Municipality. A few of the unopened bottles of Drugs that remained over and a few of the appliances that were in good condition have been returned to the Medical Stores as per details in appendix 4. Cots, linen, a few of the partly used up bottles of medicines and a few used appliances, glass ware, easy chairs, screens, bedding etc., as per details in appendix 5 have been transferred to the Epidemic Diseases Hospital.

Tents have been handed over to the Municipal D.P.W. for being returned carefully to the respective Departments.

We r e m a i n,

Sir,

Your most obedient servants,

Sd/ D.S.Puttanna,
Medical Officer in charge
of the Temporary Influenza Hosptl.

Sd/ F.Fernandes
Health Officer,
Bangalore City.

" C O P Y "

Honorary President.

A BRIEF REPORT ON THE WORKING OF THE TEMPORARY INFLUENZA HOSPITAL, BANGALORE CITY.

The temporary Influenza Hospital was opened under canvas in the City Municipal Gardens, near Dharmambhudi Tank on the 30th October 1918, with the necessary equipment of drugs and appliances to accommodate 75 in-patients. There was separate provision made for examination and treatment of out-patients as well.

2. The staff of the Hospital consisted of a Medical Officer in charge, three Sub Assistant Surgeons, six fully trained Nurses, and a proportionate number of menial staff. The Staff had the privilege of receiving from time to time expert professional advice, at the hands of the Senior Surgeon, Sanitary Commissioner, and Dr.Mylvaganam, the visiting Officer of the Hospital. Last but not least the Honorary President of the City Municipality used to evince such a kindly interest in the Hospital that he never failed even amidst his multifarious duties to pay his visits to the Hospital at least once almost every day and instil enthusiasm into the minds of every member of the Staff for which they are all very grateful.

3. The Hospital was kept open at all hours of the day and night there being a Sub Assistant Surgeon always on duty at the Hospital. The Medical Officer in charge was living quite close to the Hospital with a view specially to answer more than once to emergent calls made upon him out of Hospital hours both day and night.

4. Patients began to pour in good numbers from the afternoon of the 30th October 1918 until at one time within about a fortnight after the opening of the Hospital, all the available beds were occupied when a few more additional tents were pitched to accommodate another 50 patients.

5. The total out-patients' attendance upto the 30th November 1918 when the Hospital was closed was 1062 the average per day being 32.2. Total in-patients admitted were 198 the average per day being 6.1. Out of the 198 that were admitted, 119 or 60.1 per cent were Pneumonia cases, 79 or 39.8 per cent were Influenza cases. Of the 3 Influenza cases that showed symtoms of Meningitis 2 cases recovered and one proved fatal within 48 hours of its admission.

Out of the 4 cases of Oneumonia that had pregnancy as an additional complication, three recovered; 1 had a miscarriage the infant born being resuscitated by artificial respiration; the other had incomplete abortion with retained membranes etc., which had to be evacuated. These two latter cases of course proved fatal.

6. Out of 198 persons admitted 18 were of middle class, the rest of lower class.

7. The total number of patients discharged cured was 144 or 72 per cent and total number of deaths was 54 or 27.2 per cent, 23 or 42.5 per cent of these 54 or a trifle less than half that died, did so within 24 hours of their admission into the Hospital.

8. The stay of each patient in the Hospital was on an average 6.2 days, and the average cost of each patient works upto about Rs. per day.

9. The members of the Staff of the Hospital put forth their very best efforts to make the Institution a really useful and a successful one. The services of the Boy Scouts to the Hospital deserve special mention.

10. Considering that the Hospital was brought into existence at such a short notice, the results achieved are very gratifying.

Sd/- D.S.Puttanna
Medical Officer in charge
Temporary Influenza
Hospital.

Bangalore City
Dated 11th Decr., 18.

" C O P Y "

Honorary President.

A brief report on the relief work organized during the Influenza Epidemic of October and November 1918 in Bangalore City.

MR. PRESIDENT AND GENTLEMEN,

It is my pleasant duty to lay before you, a brief history of the origin, growth and termination of the Influenza relief work in the City, organized under the auspices of the Bangalore City Municipality. The terrible scourge has abated and it is only right that a report shewing what steps were adopted to check its ravages, the agency employed for the purpose and the lessons that the illness has impressed on us should be submitted to you, who were so closely associated in combating the Epidemic. At their meeting held on the 5th October 1918, the City Municipal Council recognised that the so-called 'mysterious fever' of Bombay had been in our midst, that indeed it had already obtained a firm foot-hold on the population and passed proceedings suggesting the measures that should at once be adopted. Statistics compiled on the 6th and 7th October 1918 as ordered in these resolutions, shewed that there were about 10,000 persons suffering from Influenza by that time. It had become known that in several house-holds owing to the numerous cases of illness there were none to tend the sick. It had become common knowledge that the Hospitals and Dispensaries were working under an enormous strain, that the doors of Chemists' shops and Vaidyasalas were crammed with customers and that our poorer classes when ill and unable to leave home, had next to no chance of securing any sort of treatment or even of providing themselves with any sort of nourishment. It was our good fortune that at this critical juncture Dewan Bahadur Raja Sabha Bhushana Mr. K. P. Puttanna Chetty, C.I.E., was at our head to guide us,—an officer who had calmly faced the panic of the worst days of Plague and whose vast experience rendered it comparatively easy for him to handle the several strings of large organizations. I say this, Sir, in no spirit of personal flattery to you; for, the same sentiments have been conveyed to you from higher—far higher quarters.

The anxious state of Public Health necessitated the Hon. President obtaining permission to cancel his trip to Mysore to attend the Dasara Durbars. Under his orders, I convened a meeting in the Municipal Office on the 10th October 1918, of the Municipal Councillors and other citizens interested in social work to organize measures of relief, and if the gathering was small to begin with, I am glad it contained the nucleus of elements that multiplied abundantly in a short time. Those present offered not only their personal service but also promised to enlist volunteers to the task. Our friend and fellow citizen Mr. B. Chinnaswami Chetty, Municipal Councillor of the 2nd Division not only offered a sum of Rs. 500 to start relief work with, but promised to bear the entire expenditure connected with the

mitigation of suffering in that Division. The City was divided into several blocks, and small parties appointed for each block, each in charge of a Superintendent. The measures resolved upon were a house-to-house survey of sickness and of need and the free supply of medicine and of conji to people who had none to look after them. At the suggestion of the Sanitary Commissioner with the Government of His Highness the Maharaja of Mysore, the internal administration of the drug known as Thymol prepared out of the ajwan seeds grown in India, both as a routine treatment and as a prophylactic was decided upon. The house-to-house survey by the relief parties commenced on the 11th October 1918 and the distribution of medicine and of conji on the 12th October 1918. The Government Anna Chattram near the Municipal Garden was fixed as the Central issuing station, wherefrom the relief parties obtained their supplies and proceeded to their Divisions.

The relief workers that started on the 12th October morning were small in number, consisting of a few Municipal Councillors and Missionary Gentlemen, a few members of the Ghokale League and of the Amateur Dramatic Association and of a few students. Gradually their numbers grew till during the height of the Epidemic, there were 55 parties numbering 218 workers exclusive of Municipal officials. I shall not take up your time in detailing the names of the persons forming the several parties, as all that information together with the different centres wherein the parties were working will be found in the Appendix to this report. I may however be permitted to mention that the largest number of Superintendents came from the Gokhale League, the Amateur Dramatic Association which cancelled its trip to Mysore for the purpose, the Wesleyan and London Missions at Bangalore, The Young Mens' Christian Association, The National High School, The Central College, The Government Collegiate High School, The Civic and Social Progress Association and the Municipal Council. Led by them followed a large body of students—including those from the Vokkaligar Sangha, the Veerasaiva Students' Hostel and the City Boy Scout organization.

People in the City have now been quite familiar with the spectacle of our volunteer with his pockets stuffed with medicine and conji-cans slung to his bicycle handle-bars and going from door to door making enquiries. The amount of pitiable suffering that came to light during the volunteers' itineration is too harrowing and bears no telling. In numerous house-holds every one was down and none left to either prepare food or fetch medicine. In others, with the bread winners dead, the mothers and children were moaning with the illness. Instances where dead bodies could not be removed either owing to sickness of friends or of want of assistance in men or money frequently came to notice In all such cases instant help was rendered by the relief parties. I am informed on all hands that it has been the good fortune of our volunteers to have been blessed not only for the tangible assistance carried by them but also on account of the reassurance and courage resulting from their daily enquiries.

Early during the campaign the very large number of sick people in several house-holds who could not be properly taken care of as well as familiarity with the mode of propogation of the illness through polluted air, decided on our endeavouring to remove specially bad cases to the new camp opposite the Magadi Road Plague Hospital. The place had been newly built, the public water supply had been laid on and we had made arrangements to light the place. The unsavoury odour of the neighbourhood however was borne upon us and the Government accordingly decided to open a new Temporary Influenza Hospital. The Sanitary Commissioner was indeed from the beginning in favor of what may be called open air Hospitals connected with the several Municipal Dispensaries of the City. From the administrative point of view, however, it was easier to put up, equip and man one large Hospital instead of many, and the Municipal Garden, the centre of our relief activities was selected for the purpose. You are all aware that no expenditure was spared in order to ensure that the Hospital came into instant existence, when once its opening was decided on. The Hospital was opened on 30th October 1918 and before it was 3 days old the number of inpatients had risen to 45. There have been till now 188 admissions into the Hospital with 99 discharged cured, 24 discharged otherwise and 51 dead. There are still 14 patients under treatment. There was an out-patient department and considering that the total attendance here between the 30th Oct. and the 22nd Nov. 18 has been 347 the popularity of the Institution is beyond question. I should not forget to mention the great strain under which the Medical Officers of the several Local Fund Dispensaries were all along working The Senior Surgeon in Mysore had been good enough to place pupils from the Medical School at their disposal to assist in compounding work. In spite of this assistance, it was no easy task for the medical men in charge of these Dispensaries to attend to the large number of cases coming to the Hospital on the one hand and responding to the innumerable calls from patients at their own homes on the other. On the 25th October 1918 the Senior Surgeon, systematized this, fixing definite hours for work in Hospitals and for itineration. The special feature indeed of this last order was that the itineration was to be amidst the poorer homesteads to see serious cases brought to notice by the relief parties. It is needless to say that our relief parties took the fullest advantage of this and I have had few dissentient notes amidst the general chorus of praise coming in from all quarters regarding the exceedingly wearisome nature of the work that fell to the lot of our medical men. I should not forget to mention either, the praise-worthy manner in which the St Martha's Hospital, the Convent of Mary at Chamarajapet and the several Unani Dispensaries and Vaidyasalas throughout the City attended to the treatment of the sick. On the 26th October 1918 the Senior Surgeon deputed a Lady Medical Officer for itineration work assisted by the relief parties. Most of you are familiar with the arduous nature of her duties and I need not specify them here.

All these measures however, gentlemen, came into being at a comparatively late stage, the brunt of the work during

the early weeks of the Epidemic falling upon the relief parties. From the beginning, the demand for medicine was so heavy and so incessant that the firm that undertook to put up medicine in a form suitable for distribution was about to fail us. A band of 20 young men captained by my friends Messrs. K. S. Krishna Iyer and P. Kodanda Rao was formed who in addition to the usual relief work during mornings, attended during noons to preparing medicine, putting on labels, preparing packets and to the thousand and one details connected with getting ready all the medicinal requirements of the following day. In the issue of the *Karnataka* dated 30-10-18 there was a contribution from which I cull the following extract:—"When I pulled out a curtain in a certain Medical shop one afternoon, I was filled with pleasant surprise to see a troop of young friends engaging themselves in all sorts of ways, filtering, labelling, bottling, corking etc. I can never forget the sight of a Tutor of a College sitting on a heap of corks in desperate enthusiasm to find out suitable corks for half ounce bottles, as well as the sight of an M.A. [Hons.] squatting on the floor pasting labels." This is a statement, gentlemen, the correctness of which I can vouch for, having every evening peeped in at this ~~self~~ same place and witnessed the ~~self~~ same spectacle. In fact, I remember one evening a long-suffering volunteer resolutely declined to continue the work the following day unless he was given a seat other than a bag of corks! A total quantity of about 6¼ lacs of doses of Thymol, 3898 packets of Epsom salt and 8334 packets of cough powders for internal administration and 1500 ounces of Eucalyptus oil for external application were distributed through our volunteer agency. A total quantity of altogether nearly 40,000 seers of conji was issued from the Government Anna Chattram and distributed by the volunteers throughout the Divisions. In the first instance, we started transporting conji by hand. As our field of operations extended, we employed bullock gharies and jutkas. Later, came the commodious motor car lent for relief work on behalf of the Amateur Dramatic Association by Mr. T V. Krishna Iyengar to whom our best thanks are due. When the relief operations were in full swing, there were two Government cars, Mr. Krishna Iyengar's private car, a hired car, a large number of carriages, jutkas, carts and bicycles innumerable, some transporting conji, others carrying relief parties with or without medical men and yet others conveying the sick to Hospital. During the height of the Epidemic a minimum number of 6000 persons were daily undergoing the Thymol treatment, and at least 3000 persons daily in receipt of our conji doles. I have made large allowance for wastage before arriving at these figures. The munificience of His Highness the Maharaja of Mysore enabled the relief parties distributing 800 blankets for the most needy amongst the sick that came to their notice.

With regard to the action of Thymol there has practically been unanimity of opinion with regard to the beneficial action of the drug for the complaint I have not at my disposal, very accurate statistics shewing the stage at which treatment was taken up, the duration of treatment in indiv-

dual cases etc., though printed diary forms had been supplied to all relief parties, which were to be daily filled up from registers maintained by them. I have received 348 diaries from relief parties and from the remarks against the column " opinion with regard to action of Thymol ", have compiled the following :—

In 124 diaries the columns are left blank.

In 2 diaries the columns shew " 70 per cent cured."

In 10 diaries the columns shew " patients improving."

In 2 diaries the columns shew "beneficial but causes purging."

In 2 diaries the columns shew " efficacious at the first stage in all cases: successful in some cases in the second stage: unsuccessful in the last stage."

In 4 diaries the columns shew " ಹುಬಾಗುಣವೆಂದು ಹೇಳುತ್ತಾರೆ

In 2 diaries the columns shew " stops vomiting."

In 21 diaries the columns shew " very effective in early stages : something else needed in complicated cases."

In 21 diaries the columns shew " fever stops: cough continues."

In 18 diaries the columns show "fever stops."

In 24 diaries the columns shew " making good progress."

In 44 diaries the columns shew " satisfactory."

In 29 diaries the columns shew " effective."

In 45 diaries the columns shew " very effective."

I might perhaps mention that the columns are left blank in several instances owing to the effect not having been definitely established to the satisfaction of the observer or to an opinion having been given at a very near date. Opinion like this from numerous observers like Rev. D. A. Rees, Rev. G. Wilkins, Mr. S. Venkataranga Iyengar, Mr. B. Venkatanaranappa and Father P. M. Briand who have treated a large number of people and kept a careful watch over their cases is conclusive of the useful nature of the drug—at any rate at the early stages of the illness.

There may of course be difference of opinion with regard to the effecacy of the measures we adopted or the extent to which they proved equal to the occasion. But there can be no two opinions with regard to the whole-heartedness and sincerity of purpose with which the volunteer organization was animated. Old and young alike tramped through the streets in the hot afternoons, the private business concerns of several of our volunteers were disorganized, they bore alike a considerable measure of physicel strain, numbers of them had in addition to the relief work to attend to their regular routine duties in diverse capacities and some of them fell ill though happily they recovered ; but there was no dissatisfaction: there was no murmur : even the work of guarding the Influenza Hospital Camp was cheerfully taken up by shifts of 54 Boy Scouts both by day and by night under our friend Mr. B. K. Ramprasad.

I should not forget to mention the names of a few of the private gentlemen who also directed their charity towards feeding the sick. Mr. Marappa of the Vokkaligara Sangha prepared at his own cost and distributed 7800 seers of conji from the 24th Oct. to 15th November 1918. Messrs. Govinda Sahuji and Ramalingappa took up similar service in the 2nd and 4th divisions of the city respectively. The Amateur Dramatic Association went one step further and endeavoured to issue rations to convalescents, who on the one hand had passed the conji stage and on the other were still too weak to earn their daily livelihood. The relief workers distributed tickets and on such tickets, nearly 11,400 seers of Ragi and 2000 seers of Rice were issued to deserving subjects in 7 depots between the 3rd and 19th Nov. 1918.

& Messrs Neeli Ranganappa, M Shankarappa and P. Honnajirayappa also prepared and served Conji in Cubbonpete

I might perhaps be pardoned if I mentioned the earnest services rendered by Municipal subordinates of all ranks and grades at this juncture. Some of them caught ill and died. Almost all shared in the general illness and but few escaped domestic calamity of one shape or another. Yet they held on, taking up whatever duties were assigned, no matter how tiresome or how remote from their legitimate sphere of work. I feel I ought to gratefully testify to this on this occasion.

But on the general volunteer, this was no obligatory duty as on some of us and no expenditure of funds could have secured all this assistance which has been a labour of love and brotherliness. Men in almost all walks of life took part in the work. I need only instance veterans like Messrs. H. Ramayya, S. Venkataranga Iyengar and M. S. Puttanna, businessmen like Messrs. B. K. Garudachar, K. S. Krishna Iyer, P. Munibasappa B. Usman Khan and D. Adeppa, Officers like Messrs. V. S. Sambasiva Iyer, B. Venkatanaranappa and N. Narasimhamurti, Advocates like Messrs. M. Krishna Murthi S. Venkatachaliengar and C. V. Narasimha Iyengar, the members of the several associations I have already specified in the earlier part of the report, numerous officials, a large body of students, several Police Constables and others in yet humbler walks of life too numerous to mention,—who have all joined hands and assisted wholeheartedly in the task of amelioration of human suffering. In a speech delivered in this Hall seven days ago, the Dewan Sir M. Visvesvaraya said as follows :—"Our meed of praise is due to the Presidents of the two City Municipalities and Deputy Commissioners, to the many officers and subordinates of the Revenue and Medical Departments, and particularly to the numerous public men who came forward to assist Government and the Municipal authorities and gave freely of their money, time, and energy. Nor should I omit to mention the enthusiasm of the younger generation—students and other volunteers—who showed such a fine spirit of unselfish service in carrying food and medicines to the very doors of the poor and the needy, without any regard to the risks they were running." This generous tribute to our humble work cannot but be most gratifying.

We have witnessed and passed through great suffering. There has been a most regrettable loss of life. There has

been disorganization of business involving considerable financial loss. At every turn scarcity of food, panic and uncertainty of life have stared us in the face. Painful as all these have been, there is yet a bright side to the picture revealing the new spirit of self-help and responsiveness to the calls of civic duty. This is why it is inappropriate to thank ~~you~~ for the self-sacrifice that took no thought of personal risks and the thoroughness that permeated every little act done by ~~you~~ them. I will conclude, Gentlemen, with what the Dewan Saheb was pleased to say after inspection of the work of the relief parties on the 25th October last. Speaking to our most worthy President, he said that he had the highest hopes of the rising generation and that the spectacle of the harmonious working of the old with the young, the official with the non-official and the rich with the poor was of the happiest augury for the future of the country. Our satisfaction is therefore in the fact that we had the proud privilege to participate, each in his humble capacity, in this new spirit of the age—a spirit of civic responsiveness when by the peoples united will and effort epidemics will be banished from the country, want diminished and life revealed in an altogether happier setting.

APPENDIX.

Relief Parties Working in the Divisions.

Division	Party.	Area.
I.	Mr. Doningo	Dobbspet, Upparahalli, Munireddypalya.
II.	Mr. Chinnasawmi Chetty	Kilari Road, Rangasawmi Temple Street etc.

MEMORANDUM

Reply from The Superintendent Medical Stores Bangalore

To The Manager Govt Press Bangalore

1/9/1919

Dear Sir,

The cost referred to is debited to Medical Budget

Yours &c

Passed on to M. Ananthanarayanayya with compliments

S. Ananthanarayanayya

Superintendent,
Medical Stores.

MEMORANDUM

From Immediate. *To* 31st Sept. 1919

The Manager,
Senior Surgeon's Office
Bangalore.

The Superintendent,
Medical Stores, Bangalore.

Dear Sir,

Information is required by the Secretariat if the cost of Europe medicines supplied to the E.D.Hospitals, Bangalore and Mysore, is debited to and borne by the Medical Department like the cost of the supplies made to the L.F. and Municipal institutions, or is being debited to the respective Municipal Councils which were hitherto maintaining these E D. Hospitals ? I request that the information may kindly be given on the reverse.

Yours sincerely,
S. Nivalan
